Your Global Source for Collision Repair Industry News, Statistics, and Trend Analysis

Wednesday, 24 Jan 2007

Thursday CREW Webcast to Feature Insurance Expert Brian Sullivan

The guest speaker for Thursday's Collision Repair Executive Webcast (CREW) will be insurance industry expert Brian Sullivan. He will look at the factors that will shape the personal auto insurance market and how these factors will affect the collision repair industry. His presentation will cover market competition, consumer requirements, the claims handling process, e-commerce and direct repair programs.

Sullivan is president and founder of Risk Information, Inc., a publishing and seminar company focused on the property and casualty insurance industry. The company's newsletters, Auto Insurance Report and Property Insurance Report, are read by insurance company executives, top regulatory officials, trade and consumer groups and Wall Street analysts. Both newsletters focus on market structure, competition, regulation, legislation and judicial issues.

There is no charge to attend the webcast but prior registration is required. If you are interested in joining the CREW webcast call Liz Stein at (714) 279-2027 or e-mail crew@fixauto.com

Past CREW webcasts featured high level industry presentations from George Avery, National Claim Consultant for State Farm, Beryl Carlew, of Carlew and Associates LLC, and Roger Wright, Vice President Claims, AIG Personal Lines.

The monthly one hour CREW is sponsored by Fix Auto.
