CREW Webcast Panel to Examine on Insurer-Repairer Tension

©2007 by CollisionWeek. All rights reserved. No part of this publication may be reproduced or transmitted by any means without permission in writing from the publisher.

The September 27, 2007 CREW Webcast panel will explore the relationship between insurers and collision repairers and the mounting tensions that exist in that relationship whether real or perceived.

The cross-industry panel represent shops, insurers, and industry associations, with the aim of cultivating a balanced, informative, and productive discussion.

The distinguished panel of experts includes Roger Wright (Vice President of Material Damage, Personal Lines - AIG), Dan Bailey (Chief Operating Officer of CARSTAR), Darrell Amberson (Division Director, Collision Division - ASA and President of Lehman's Garage in Minneapolis, MN), Dan Risley (Executive Director - SCRS) and Robert Passmore (Director, Personal Lines, Property Casualty Insurers Association of America.)

The goal of this panel is to uncover what is real and what is fiction on this complex issue, so that industry members come away better informed and make decisions on how to operate within their markets and adjust to the changing conditions between the insurance and collision repair industries.

CREW is hosted by Fix Auto. Matthew Ohrnstein, Symphony Advisors and Vincent Romans, The Romans Group, produce and present the bi-monthly, one-hour Webcast meeting.

There is no cost to participate in CREW but prior registration is required. The CREW Webcast is usually held every third Thursday bi-monthly at 11 a.m. PST. If you are interested in joining the upcoming Webcast please call the CREW help desk at (714) 279-2023 or register by e-mail at crew@crewwebcast.com.
